**Allowable Subject Matter**

1. Claims 1-13 are allowable over prior art.

2. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

As in claims 1, 8 and 11-13, the prior art of record fails to teach or fairly suggest an optical recording medium having following features:

(a) the medium on which information is to be recorded by one of a plurality of different information recording apparatuses at the time of manufacturing the recording medium; and

(b) there are recorded in advance on the optical recording medium a plurality of sets of identification information and corresponding recording, parameter information.

The features indicated above, in combination with the other elements of the claims, are not anticipated by, nor made obvious over, the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Related Prior Art**

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Moon et al. (7,039,295) is pertinent because Moon teaches an optical medium having manufacture's information recorded during manufacturing of the medium.
